Major, Active Regulatory Actions	27	Does not include categories outside of the regulatory designation.
Non-Major/Undetermined Active Regulatory Actions	134	
Regulatory Actions, Active First-Time Proposals	30	

Source: Author’s own analysis of items included in Spring 2025 Unified Agenda of Regulatory and Deregulatory Actions. Note: This table follows the definition of regulatory and deregulatory actions established by E.O. 14192’s [guidance](#) and does not include regulatory and deregulatory actions apart from the Unified Agenda. This table does not include other categories of deregulatory action such as the removal of guidance documents and information collections. It only captures active regulations within the government’s primary, formal regulatory database.
